# Here's To Good Times and Good Health

Happy Holidays to everyone. We hope this finds you well, and healthy. There were tough times for many of you in the ice industry, including plant fires, other issues pertaining to your operation and seeing that you stay operating as many days and ways as possible. This industry has always been available for you during tough times, and also shares in the benefits and rewards of the good times.

The International Packaged Ice Association is tangible evidence of this cooperation at an international level. We bring you coverage of their recent annual convention in the form of officers, directors, and committee chairs. Frank Lomangino was elected chairman. Other officers are listed beginning on page 6. Please contact members listed for any needs or questions.

Getting older during the holidays has been a process I've seen coming and I'm embracing this time, this new way of being in the holidays. My boys are the ones with the obligations now. We have always tried to keep it simple, but when you are "starting" with 4 it takes effort to keep it low.

I hope you can 'keep it low' this holiday, if that's what you want, and rest easy knowing that the product you manufacture, is probably keeping something special cold for someone special, and making them smile.

Happy Holidays !

# FDA publishes large list of recalls

After hearing about so many 'back-to-back' food contaminations, I took a look at the FDA and what they had in writing. The following is simply a reprint of their current chart. There is always that underlying feeling of pride, however, when I realize that our product, ICE, for the most part, stays pure through your efforts.
